Chapter 2

Translation and Typesetting - **Ochimusha**

Released February 1st, 2015

Hey, whaddya know, it was her! What're the odds? I'm glad we got that whole mystery sorted out

This is one of the many things I'm going to have hard time conveying in English, but Touko's stage name and real name are very similar in Japanese. They differ in that 'Mitsuko' contains the number 3 and 'Yotsuko' contains the number 4. Her given name, Touko, is written with slightly different kanji but pronounced the same. Someone who's a little hung up on her, like Bon, would be able to spot the similarity.

See you for the next chapter! Feel free to drop a line if you're enjoying it thus far
